DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-3, 5-22, 24-34, 26-57 and 59-66 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claimed invention is directed to a method and apparatus for distribution of financial instruments. The claims recite communicating an initial parameter data between an issuer and an underwriter and then determining financial parameter data based on the initial parameter and an agreement between the issuer and the underwriter. However, there is nothing being done after this function. The claims therefore do not produce any real world application and also are devoid of a useful, concrete and tangible result.

2. Claims 1-3, 5-22, 24-34, 26-57 and 59-66 are allowable over the art of record.
